Re: Cultural Resources Consultation Complete—No Cultural Resources Survey Required for

Project Title: Gold Creek Assessment + Conceptual Design

Project Number: 12-1306

Dear David:

Pursuant to the requirements of Governor's Executive Order 05-05 Archaeological and Cultural Resources Consultation and the terms of the above referenced Project Agreement, you are hereby notified that RCO has completed cultural resources consultation with Native American tribes and the Department of Archaeology and Historic Preservation. No further cultural resource investigation is required prior to commencing the ground disturbing activities included in the funded scope of work for the above referenced project. If the nature or extent of ground disturbance proposed for this project should change, please notify your grant manager immediately as the change may warrant additional consultation.

Please remember that if archaeological or historic materials are discovered during project activities, work in the immediate vicinity must stop; the area must be secured, and the Sponsor must notify concerned tribe's cultural staff/committee, the Washington State Department of Archaeology and Historic Preservation, and the Recreation and Conservation Office. Also, in the event that human remains are discovered during project activity, work in the immediate vicinity must stop, the area must be secured and notification to the coroner and local law enforcement in the most expeditious manner possible is required.

We wish you success with the project and thank you for your part in promoting salmon recovery. If you have any questions, please contact me by calling (360) 902-2639 or by sending an email to kay.caromile@rco.wa.gov.

Sincerely,

Kay Caromile
Salmon Grants Manager
