**DEED OF RIGHT TO USE LAND**  
**FOR SALMON RECOVERY PURPOSES**  
 (Wilson-Hawkes Property Phase II)

The State of Washington, The Department of Fish and Wildlife, (the "Grantor") grants this Deed for and in consideration of monies coming in whole or in part from the General Fund State – Salmon Recovery Funding Board. Such grant is made pursuant to the Project Agreement entered into between the Grantor and The State of Washington, acting by and through the Washington State Salmon Recovery Funding Board and the Washington State Recreation and Conservation Office, including any successor agencies (the "Grantee") entitled McLoughlin Falls 2010, Project Number 10-1861A, signed by the Grantor on the February 18, 2011 and by the Grantee on February 25, 2011, and supporting materials which are on file with the Grantor and the Grantee in connection with the Project Agreement.

The Grantor hereby conveys and grants to the Grantee as the representative of the people of the State of Washington, the right to enforce the following duties:

1. The Grantor shall take such reasonable and feasible measures as are necessary to protect in perpetuity the real property as described in the attached Exhibit A (the "Property") and depicted on the attached Exhibit B. Such measures shall be consistent with the purposes in the Project Agreement, including protecting, preserving, restoring and enhancing the habitat functions on the Property, which includes riparian areas, wetlands, flood plains, off-channel habitats, and shrub-steppe habitat. This habitat supports or may support priority species including but not limited to summer Chinook, steelhead and bull trout.
2. The Grantor shall allow public access to the Property as provided in the Project Agreement. Such access shall be subject to the restrictions, if any, allowed under the Project Agreement, by written agreement with the Grantee, or under state law. This provision is not intended to prevent reasonable access or use restrictions that are necessary for safe and effective management of the Property consistent with habitat conservation purposes and the Project Agreement.
3. The Grantor shall provide access by the Grantee to inspect the Property for compliance with the terms of this Deed and the Project Agreement. Such access shall be subject to the restrictions, if any, allowed under the Project Agreement, by written agreement with the Grantee, or under state law. The Grantor warrants it has and shall maintain the legal right and means to reach the Property.
4. Without prior written consent by the Grantee, an amendment to the Project Agreement, or the process set forth below, the Grantor shall not use or allow any use of the Property that is inconsistent with the conservation purposes herein granted and as

stated in the Project Agreement. The Grantor shall also not grant or suffer the creation of any property interest that is inconsistent with the conservation purposes herein granted and as stated in the Project Agreement.

Grantee's consent to an inconsistent use or property interest under this Deed shall be granted only to the extent permitted by law and upon the following three conditions, which ensure the substitution of other eligible conservation land: (1) the substitute conservation land must be of reasonably equivalent habitat qualities, characteristics and location for the conservation purposes as the Property prior to any inconsistent use; (2) the substitute conservation land must be of at least equal fair market value to the Property at the time of Grantee's consent to the inconsistent use; and, (3) the fair market value of the Property at the time of the Grantee's consent to the inconsistent use shall not take into consideration any encumbrances imposed on or alterations made to the Property as a result of the Project Agreement and other grants if such encumbrances or alterations reduce the value of the Property from what it would be without them.

For purposes of this Deed the Project Agreement includes any amendments thereto that occur prior to or subsequent to the execution of this Deed.

This Deed contains covenants running with the land and shall be binding upon the Grantor, its successors and assigns, and upon any person acquiring the Property, or any portion thereof, or any interest therein, including a leasehold interest, whether by operation of law or otherwise, unless this Deed is removed or altered. If the Grantor sells all or any portion of its interest, the new owner of the Property or any portion thereof (including, without limitation, any owner who acquires its interest by foreclosure, trustee's sale or otherwise) shall be subject to applicable covenants and requirements under this Deed, unless this Deed is removed or altered.

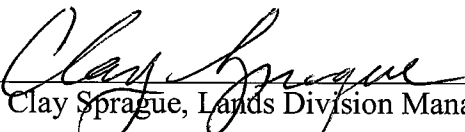

This Deed may not be removed or altered from the Property unless specific approval has been granted by the Grantee.

The Washington State Salmon Recovery Funding Board and the Washington State Recreation and Conservation Office and its successors shall each have a separate and independent right to enforce the terms of this Deed.

GRANTOR:

The State of Washington, The Department of Fish and Wildlife
