PROGRESS REPORT QUESTIONS

#	Question	Answer	Answer Description
1 of 4	Are there any significant challenges that might hinder progress or keep you from meeting your project milestones? If so, please tell us about them.	No	We worked really hard with the permitting agencies and were able to get approval to install the bridges this fall.
2 of 4	Describe the work accomplished during this reporting period.		We installed 2.6 miles of riparian fence, removed the two barrier crossings, replaced them with channel spanning bridges, improved one hard crossing that is rarely utilized.
3 of 4	Do you anticipate any changes to your project? Please describe those changes here.	No	
4 of 4	Tell us about work planned for the next reporting period.		We will be working with the landowner to physically remove the historic diversion on the creek and to identify off channel water locations.
