Project Description

The Whidbey Camano Land Trust (WCLT) proposes to develop a science-based prioritization of shoreline parcels in WRIA 6 (Island County), to acquire for conservation (and associated restoration, if applicable) of nearshore and estuarine processes, to assist the recovery of salmonid populations which use the nearshore areas of WRIA 6. It is envisioned that the prioritization will be used to: 1) Inform where to emphasize efforts to identify willing landowners, and 2) Inform decisions about whether to purchase parcel(s) that opportunistically come on the market by characterizing the relative priority of the parcel(s).

Planning Questions

| | |
|--------|---|
| 1 of 4 | Cultural Resources: Has the worksite been investigated for historical, archeological, or cultural resources? If yes, when did this occur and what agencies and tribes were consulted? Attach related documents (letters, surveys, agreements, etc.) to your project in PRISM. No, N/A |
| 2 of 4 | Cultural Resources: Describe any proposed ground disturbing activities that will take place as part of your project. This includes work conducted by hand or mechanized tools. Provide specific information including length, width, and depth of the ground disturbance. Ground disturbing work includes all restoration activities, geotech, fencing, demolition, etc. Avoid subjective phrases such as “ground disturbing activities will be minor”. N/A |
| 3 of 4 | Cultural Resources: What is the current land use of the site? Has there been ground disturbances historically, if so, what are/were those disturbances? Is there any fill where ground disturbance is proposed? If known, how deep is the fill? The answer to this question will be used in cultural resource consultation so please provide detailed information. N/A |
| 4 of 4 | Is the worksite(s) located within an existing park, wildlife refuge, natural area preserve, or other recreation or habitat site? If yes, name the area and specify if the land is owned by local, state or federal government. No, N/A |

Overall Project Questions
