#### PROJECT DETAILS

Page	Grant Manager Comment
Project Location	#2--did you get confirmation from dnr?
Property Details	#3- consider saying in general what restoration might entail (e.g., modifying existing dikes, filling existing ditches, reveg)

#### QUESTIONS

Page	Grant Manager Comment
Project Proposal	The planning metrics indicate you are completing preliminary (permit-ready) designs. If so, please make that clear in the project description. If not, please delete that worktype from the planning metrics.
Acquisition Supplemental	Question: Did you budget to acquire all of them, or just a portion of them? Right now, it's written that you are acquiring all 5 properties as part of this grant. If this is not the case, let me know and I can help you re-write it to acquire at least x of 5.

#### METRICS

Page	Grant Manager Comment
Planning Metrics	The planning metrics indicate you are completing preliminary (permit-ready) designs. If so, please make that clear in the project description (it currently states you are doing a feasibility study). If not, please delete that worktype from the planning metrics and adjust costs, as needed.

#### CULTURAL RESOURCES

Page	Grant Manager Comment
Cultural Resources	#2. The metrics mention fencing and signs and noxious weed control. If any fencing, signs, or any other ground-disturbing activities will occur as part of this scope of work, please detail that here, in addition to what you already wrote. #6: Are the federal funds secure and do they cover the same scope of work? I use this information to determine whether RCO is responsible for any cultural resources consultation. #10: List the likely type of restoration work (dike modification, etc).

#### ATTACHMENTS

Page	Grant Manager Comment
Attachments	-Do you have landowner ack forms for the other landowners? If you are targeting their properties in this grant (i.e., you aren't trying to acquire at least 2 of 5 properties, then you should secure a form from all parties.
