

## Project Cultural Resources Screening Report

---

PROJECT: 20-1935 Planning, Meadowdale Beach Park Restoration Study

Sponsor: Tulalip Tribes      Program: ESRP Activities

---

### PROJECT DESCRIPTION

The Meadowdale Beach Park Restoration Study will be conducted at Snohomish County's Meadowdale Beach Park. The project will evaluate the geomorphic and ecologic responses of the ESRP-funded Meadowdale Beach and Estuary Restoration Project, the first estuary embayment restoration project along the 52 miles of waterfront railroad in the Salish Sea. Improving understanding and metrics of project performance and system responses across several interconnected habitats will inform future design, siting and resilience of restoration investments and provide data on the use of the site by ESA listed Puget Sound juvenile chinook, juvenile coho, cutthroat trout, steelhead, and forage fish.

### PROJECT CONTACTS

Name, Organization	Project Role	Work Phone	Work Email
Kay Caromile Rec. and Conserv. Office	Project Manager	(360) 867-8532	<a href="mailto:kay.caromile@rco.wa.gov">kay.caromile@rco.wa.gov</a>
Todd Zackey Tulalip Tribes	Project Contact	(360) 716-4637	<a href="mailto:tzackey@tulaliptribes-nsn.gov">tzackey@tulaliptribes-nsn.gov</a>

### PROJECT MAP
