Project
Location:

Project Sponsor: **Chelan Co Natural Resource**

Project
Number: **07-1885-N**

Project Name: **BNSF Railroad and Wenatchee Basin Coordination**

Date: **October 26, 2007**

Project type:

Please refer to the criteria listed below or Manual #18, Appendix C, for projects that are not considered technically sound. In the "Why" area explain your reason for selecting this as a preliminary project of concern.

1. Is this a preliminary project of concern according to the SRFB's criteria?

Yes ☐ No ☒ NMI ☐

Why?

2. If YES, what would make this a technically sound project according to the SRFB's criteria?

3. If NO, are there ways in which this project could be further improved?

It may be challenging for this assessment to lead to implementation of on-the-ground restoration projects, but the Review Panel commends the sponsor for trying to work with BSNF Railroad.

4. Other comments.
