Questions

#1: Describe the work accomplished during this reporting period.

During this reporting period we completed vegetation planting at the project site, as-built drawings, and a final restoration report. As-built drawings and the final report have been uploaded to PRISM.

#2: Are there any significant challenges that might hinder progress or keep you from meeting your project milestones? If so, please tell us about them.

No

#3: Tell us about work planned for the next reporting period.

Remaining project funds will be used for vegetation maintenance, final reporting, and grant closeout tasks.

#4: Do you anticipate you will need to request a modification to your project agreement in the next six months (time extension, cost change, scope change, etc.)? If yes, please explain:

No

Special Conditions

This project appears to be subject to the National Historic Preservation Act, Section 106, and therefore appears to be exempt from Governor???s Executive Order 05-05 Archaeological and Cultural Resources (EO 05-05) as described in the terms of this project agreement. In order for this project to be exempt from EO 05-05, the Section 106 Area of Potential Effect (APE) must include all ground-disturbing activities subject to this project agreement, including any staging area. The sponsor is encouraged to work with the federal permitting agency to align the Section 106 APE with the scope of work subject to this project agreement. If the APE does not include all ground-disturbing activities subject to this project agreement, promptly notify the RCO grant manager, as this will require RCO to initiate cultural resources consultation following EO 05-05 for those activities not included in the federal APE. RCO will withhold reimbursement of development or restoration expenditures until this requirement is met. For acquisition projects, final payment will be withheld until evidence of cultural resources review is provided. All cultural resources work must meet reporting guidelines outlined by the Department of Archaeology and Historic Preservation and Section 106 of the National Historic Preservation Act. In the event that archaeological materials or human remains are discovered within the project area, work in the immediate vicinity must stop, and the Sponsor must ensure compliance with the provisions found in this agreement and under state and federal law.
