Good morning Scott,

I am reaching out this AM to request a letter (or "other written documentation" so I assume this means an email is acceptable) that confirms that you, as a representative of the Squaxin Island Tribe, signatory, and project sponsor, are ok with the transfer of this grant to MCD, should that still be the case.

I am working to finalize the transfer of this grant this week. On an unrelated note, we just received funding to take the Shadow Valley (Mill Creek Trib.) to construction - Prism #21-1526. I had not even been aware that Brian had submitted this for construction but got an email out of the blue that funding has been awarded.

Best,

Casey Allen

Salmon Restoration Project Manager
