**Progress Report***List work accomplished for billing period.*

UCD Technician, Jamie Gomez, worked with the District Engineers to produce a set of Permit Design Drawings for the project. With the completed design drawings, Jamie Gomez then began work on filling out and sending in a Joint Aquatic Resource Permit Application with as well as an Application for Streamlined Process for Fish Habitat Enhancement Projects. Plans were made with the District Engineers to survey the project site. UCD Manager, Tova Cochrane, sent a draft Landowner Agreement to Hancock Timber Management, and also started planning and researching the off-stream livestock watering facilities.
