RE: Peshastin Irrigation District Pipeline Cultural Resources Report Review (SRFB# 07-1865)

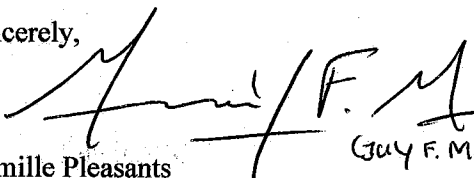

Dear Mr. Lundgren:

We have received your letter inviting us to comment on the report titled "Archaeological Investigations for the Peshastin Pipeline Project, Chelan County, Washington" prepared by Susan D. Freiberg and Margaret A. Nelson. We found the report to be well written and that the ethnographic review was sufficient for the size of the undertaking.

We concur with the determination of Adverse Effect to the Peshastin Irrigation Ditch. We look forward to consulting with your office and your federal partners during the development of the Memorandum of Agreement for the resolution of Adverse Effects.

Thank you for consulting with the THPO. Please note that these comments are based on information available to us at the time of the project review. We reserve the right to revise our comments as information becomes available. If you have any questions or concerns, please contact me at (509) 634-2654. For technical questions, please contact Cheryl Pouley at (509) 634-2690.

Sincerely,

for Camille Pleasants
Tribal Historic Preservation Officer

Guy F. Mowra, Acting 1-14-10
